

MATIC 100

Semi-automatic gummed tape dispenser

Top-quality within inspired design!

The MATIC 100 is a solid metal made machine with a great operational safety and a long life-span. It is easy to operate by simple and almost noiseless mechanics. The uncomplicated structure of this machine makes services easy.

- Process two different pre-adjustable lengths
- Tape width from 40 – 100 mm and up to 200 m length
- Quick choose of preset lengths on clearly marked dial
- Tape length up to 90 cm with one stroke – longer tape with multiple strokes
- Two water brushes provide consistent, uniform wetting of adhesive
